

## SEQIP Data Subcommittee Minutes 1.11.2021

- I. Sasha welcomed the group and shared the format of the call for the year
  - a. Sasha and Abby will review common questions that may have been sent throughout the month
  - b. Sasha will review TJC updates/Abby will share PMT updates
  - c. Sasha will try to share tip/tricks making it easier to use your GWTG-Stroke data
- II. COVID19 data in GWTG-S
  - a. Is everyone entering this data into the tool? Since the element was only added mid way through the year, it might be beneficial to go back and retroactively denote COVID patients who presented to your hospital with a stroke.
  - b. Filter option available in Reports section
- III. Data Review
  - a. Sasha demoed the “data download” function
  - b. Abby reviewed GWTG Award reports that your hospital can run to give them their progress to award. To identify patient fallouts for these measures, please watch the video *'Using Patient Record Reports to Identify Measure Fallouts'* below
