

Kentucky Maternal Morbidity & Mortality Task Force

Ashley Boerrigter, MD & Linda Berry, RN, MSN

June 5, 2025

Cardiac Conditions in Obstetric Care Committee

- Part of the KyMMM TF (HRSA grant-funded)
- We are a diverse group!
- Our goal: to reduce preventable maternal mortality and morbidity in Kentucky

AIM Cardiac Conditions in Obstetric Care Bundle

ALLIANCE FOR INNOVATION
ON MATERNAL HEALTH

Current Initiatives

- Train all obstetric care providers to screen each patient for condition associated risk factors using standardized cardiac risk assessment tools.
- Establish a multidisciplinary “Pregnancy Heart Team” throughout Kentucky:
 - Local providers who conduct screens to identify patients at risk
 - Network of consultants who accept referrals from local providers to evaluate patients in a timely fashion and provide recommendations and resources for advanced care
- Track metrics to continue identifying areas for improvement.

What's Next?

1. Zoom meetings every other month, second Friday @ 3pm ET – all are welcome!
Next is June 13th.
2. KyMMM annual meeting: Aug 27-28th in Pikeville, KY
